

INSTALLATION GUIDE

**Strobes N' More E66 MAX Traffic/Warning LED Sticks with Built-in Flasher**

**Safety First!** Before beginning the installation and/or operation of your LEDs, the installation technician and operator must read this manual in full, *before* installation.

<p>Proper installation of this product requires the installer to have a good understanding of automotive electronics, systems and procedures. Do not stare directly into these lights. Momentary blindness and/or eye damage could result. Do not install this product or route any wires in the deployment area of your air bag. Equipment mounted or located in the air bag deployment area will damage or reduce the effectiveness of the air bag or become a projectile that could cause serious personal injury or death. Refer to your vehicle owner manual for the air bag deployment area. The User/Installer assumes full responsibility to determine proper mounting location, based on providing ultimate safety to all passengers inside the vehicle. If this product uses a remote device to activate or control this product, make sure that this control is in an area that allows both the vehicle and the control to be operated safely in any driving condition. Do not attempt to activate or control this device in a hazardous driving situation.</p>	<p>If mounting this product requires drilling holes, the installer must be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also, de-burr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes. For this product to operate at optimum efficiency, a good electrical connection to chassis ground must be made. The recommended procedure requires the product ground wire to be connected directly to the NEGATIVE (-) battery post or vehicle chassis. Do not attach the NEGATIVE (-) wire to any other existing ground wire. It is recommended that these instructions be stored in a safe place and referred to when performing Maintenance and/or reinstallation of this product. FAILURE TO FOLLOW INSTRUCTIONS COULD RESULT IN DAMAGE TO THE PRODUCT OR VEHICLE AND/OR SEVERE INJURY TO YOU AND YOUR PASSENGERS!</p>
--	---

**Choose from 21 Flash Patterns** To select flash patterns, apply BLUE wire to +12 volts:

- 1 second: Short touch then release to forward pattern; repeat until desired pattern is selected
- 1~3 seconds: Reverse flash pattern selection; repeat until desired pattern is selected
- 3~5 seconds: Touch then release will reset flash pattern selection

**Set Flash Pattern to Each Mode**

**Warning Mode** Applying +12 volts to the **Purple** wire activates Warning Mode. While warning mode is activated you can use the Blue wire to select your desired flash pattern.

**Right Traffic Arrow Mode** Applying +12 volts to the **Yellow** wire activates Right Arrow Mode. While right arrow mode is activated you can use the Blue wire to select your desired Right Arrow Flash Pattern

**Left Traffic Arrow Mode** Applying +12 volts to the **White** wire activates Left Arrow Mode. While left arrow mode is activated you can use the Blue wire to select your desired Left Arrow Flash Pattern.

**Center Out Arrow Mode** Applying +12 volts to both the **Yellow and White** wires activate the Center Out Mode. While center out arrow mode is activated you can use Blue wire to select desired Center Out Arrow Flash Pattern.

**WARRANTY** Provided this product is installed and operated in a manner consistent with its use, Strobes N' More guarantees its E-Series LED stick lights for a period of 5 years from the day of purchase. Units demonstrated to be defective within the warranty period will be repaired or replaced at the seller's discretion. The customer is responsible for shipping the item to Strobes N' More - we will cover the cost of return shipping. International customers are responsible for all shipping charges. Improper installation or use of inappropriate or inadequate wiring or circuit protection causes the warranty to be void. Applying voltage directly to the LEDs will cause immediate failure and void the warranty. Damages resulting from improper use and/or accidents are not covered by this warranty. Aluminum will corrode if left in the elements or area of high road salt use - clean accordingly. Use of non-compatible components and assemblies may cause damage to the system and/or personal injury and voids all warranties. Strobes N' More LLC shall in no way be liable for other damages including consequential, indirect or special damages whether loss is due to negligence or breach of warranty.
